

Project available on GitHub: <https://github.com/samukelo-mfusi/smart-crop-monitor>

Includes all the code, folders and **ReadME** file.

Download or view **ReadME** file for installation steps.

For the attached project folder, open the **dist\launcher** folder to run the executable.

Or run in **shell**:

```
<env>C:Users\.....\smart-crop-monitor> cd dist\launcher
```

```
<env>C:Users\.....\smart-crop-monitor> .\launcher.exe
```
